

Product: The Gator Wrap® Universal Hinged Knee Brace

Model: 6130

- Excellent choice for patients who are not able to pull a knee sleeve brace over their feet
- Medial and lateral hinge straps provide excellent support.
- Unique wrap design provides for an excellent custom fit.

Order #	Size	Knee Circumference
6130	Universal	12-1/2" - 24"

SIZING: Measure around the center of the knee with leg extended.

HOW TO APPLY:

Unfasten all straps and closures. Position the back with the popliteal opening and behind the knee so popliteal opening falls at the crease behind the knee. Align the hinges with the center at the knee joint. Wrap around the front and secure the hook and loop closure. Support should fit snug but not so tight as to restrict circulation. Hinges should be aligned with the prominent bones on each side of the knee. Secure straps beginning with top strap and working your way downward. Feed the straps through the rings and secure in place.

CARE INSTRUCTIONS:

Fasten closures. Hand wash in cold water with mild soap. Wrap in a towel to remove excess water (do not twist or wring). Air dry away from heat. Do not tumble dry. Do not bleach.

CAUTION:

Wear as recommended. Always consult a physician when encountering persistent pain, discomfort, inflammation, or swelling.

WARNING:

Contact neoprene material with skin may cause irritation. Persons with a known susceptibility to dermatitis or with broken skin should avoid contact with neoprene. Anyone who develops skin irritation from contact with this material should discontinue its use immediately. Should not be worn by persons with phlebitis or circulatory disorders. Not recommended to be worn while sleeping.
