

Rest Easy Shoulder System

Features & Benefits

- Designed to maximize comfort and function.
- Adjustable light weight durable frame fits all sizes and shapes.
- Effortlessly applied and available for the right or left arm.
- Provides comfortable abduction positioning while allowing for fine adjustments of internal and external rotation.
- The Multi-functionality reduces inventory by replacing several single function braces.
- Ranges from 20 degrees internal rotation to 45 degrees external rotation and neutral to 75 degrees of abduction.
